Care of

Unadilla Nurseries

All of our orders are accompanied by a certificate of inspection.

Our stock is fresh dug and handled with the most possible care in order to deliver to our customers in prime condition.

All of our plants and trees are dug by hand and not by machinery. We do not keep plants in storage from season to season.

We guarantee our plants to be true to name.

All prices quoted herein on our plants are insured for one season only.

In most cases on the prices quoted herein, transportation is prepaid or delivered direct to you by our trucks.

Our terms are cash with order or cash on delivery.

Our references are Unadilla and Sidney National Banks and by any one of our hundreds of customers.

Planting Season

We begin planting as soon as the frost is out of the ground in the spring and continue until June. During August and September we can move such plants as Cedars, Arborvitae, Blue Spruce and other Evergreens. We usually terminate fall planting season some time in December.

Might say that the fall planting is as good as spring and sometimes better.

Planting Expert

Should your planting need an expert, we are in a position to furnish you services at very nominal prices, based upon the amount of time and services required.

Our service department includes Landscape Forestry, Improving Farm Wood Lots, Fire Protection, Planting Plans, Arboriculture, or The Care of Trees, Orchardng, Farm Engineering, Landscape Gardening, Landscape Architecture, Landscape Engineering, taking over of trees and in fact anything in this Horticultural field.

Visitors are always welcome at our Nurseries or at any of our Show Ground plots.

Dear Friend—

If I had time I would call and see every prospective purchaser of nursery stock, however, I am always busy, but if you will drop me a line, using the attached form on the back of this booklet or phone 2864 Court Square Bldg., Binghamton, N. Y. Unadilla phone 16F2, I will be pleased to make an appointment with you.

Our experience has extended over the past fifteen years in our landscaping and nursery practice. We can therefore give you first hand information, regarding most all landscaping, choice of planting material, etc.

In the planting of a few vines, perennials, shrubs, shade trees, and evergreens, your investment is only a few dollars, the pleasure, satisfactory improvement in the value of your prop-

erty makes such an investment well worth while.

Very often it takes years to work out a landscape picture, start with a plan that will make you happy with its executions, the final result in after years, a home that will bring you distinction and satisfaction.

You will find in this "Baby Booklet", some of the principal items that we grow and sell most satisfactory. We have carried on many experiments and at this time better than ever before, we are prepared to give you benefit of our experience and services.

We can save you from twenty-five to fifty per cent on the purchase price of planting material by our DIRECT

FROM GROWER TO PLANTERS

method. You save agents and deliverymen's commission. U. S. Department of Agriculture, says in the Farmers Bulletin, "Purchase direct from the nurserymen, save middleman's profit, lessen the mistakes and injuries that will occur through repeated handling."

We have a few booklets that will be sent to you free on application, such as, "What, Where, When and How to Plant" "Suggestive Plantings" and "Home Beautifying suggestions." These are a great help, absolutely free for the asking.

• Another last word, "Make your home surroundings beautiful, increase the value of your property, by doing

some gardening, nursery planting, either, this fall or next spring.

Cordially at your service

C. A. Jackson

LANDSCAPE EVERGREENS

Evergreens are a specialty with us and our collections include many of the rare and beautiful varieties as well as a quantity of the common sorts. We are fortunate in having soil conditions very favorable for their development. We transplant and root-prune all of our Evergreens frequently, that practise insures successful transplants, even to the larger trees.

Abies Balasamae (Balsam Fir)

Very erect pyramidal tree, with dark green foliage, very hardy and makes rapid growth.

6-10 in.	Each
	.25

Abies Concolor

3-4 ft.	\$ 7.50	4-5 ft.	9.50

2-3 ft.		Green	4.50
3-4 ft.		Blue	10.00
3-4 ft.		Green	6.00
4-5 ft.		Blue	12.00
4-5 ft.		Green	7.50

Picea Pungeons Kosteriana (Koster's Blue Spruce)

Very rare trees with bright blue foliage, introduced from Holland. Trees are very scarce and hard to obtain in suitable

planting sizes.

We have about thirty specimens ranging in price from \$25 to \$200 each.

Pinus Nigra (Austrian Pine)

A robust hardy Evergreen with long stiff dark green needles, thrives under worst conditions.

9-12 in.	.75	4-5 ft.	7.50
12-18 in.	1.25	5-6 ft.	10.00
18-24 in.	2.50	6-7 ft.	12.50
2-3 ft.	4.00	7-9 ft.	15.00
3-4 ft.	5.00	9-10 ft.	20.00

Pinus Ponderosa (Western Yellow Pine)

A very bushy and nice looking Evergreen.

18-24 in. 2.00

Pinus Banksiana (Jack Pine)

Valuable hardy Evergreens, for landscape purpose.

2-3 ft. 1.00

3-4 ft. 2.00

4-5 ft. 3.00

5-6 ft. 5.00

Pinus Mughus (Mugho Pine)

A hardy dwarf shrub like Evergreen.

12-18 in. 3.00

18-24 in. 4.00

2-3 ft. 5.00

3-4 ft. 7.50

Pinus Resinosa (Red Pine)

A valuable pine having dark green needles.

18-24 in. 1.00

2-3 ft. 2.00

3-4 ft. 3.00

4-5 ft. 5.00

Pinus Strobus (White Pine)

A very ornamental native pine.

2-3 ft. 2.00

3-4 ft. 3.00

4-5 ft. 5.00

Pinus Sylvestris (Scotch Pine)

Very hardy, silvery green foliage, makes very rapid growth.

9-12 in. .50

12-18 in. .75

18-24 in. 1.00

2-3 ft. 2.00

Retinospora Filifera

(Thread branched Cypress)

Bright green foliage, with drooping limbs.

2-3 ft. 4.00

Retinospora Pisifera

(Pea Fruited Cypress)

Very hardy and graceful.

8-12 in. .50

Retinospora Plumosa

(Plumed Cypress)

Dwarf green form, very bushy.

18 in. 2.50

18-24 in. 4.00

Retinospora Plumosa Aurea

(Golden Plumed Cypress)

Very popular, compact and upright.

18-24 in. 4.00

2 ft. and up 5.00

Taxus Canadensis (Canada Yew)

This Evergreen has foliage like the Hemlock. Hardy, low growing, spreading habit.

12-15 in. 2.00

15-18 in. 2.50

18-24 in. 4.00

Taxus Cuspidata (Japanese Yew)

Very hardy, foliage light green.

6-10 in. 1.00

2-3 ft. 5.00

Thuja Occidentalis (Am. Arborvitae)

Most useful of all native Evergreens.

6-8 in. .25

8-10 in. .35

12-18 in. .50

18-24 in. 1.00

2-3 ft. 2.00

3-4 ft. 3.00

4-5 ft. 4.00

5-6 ft.	5.00
6-7 ft.	6.00
7-8 ft.	7.00
8-10 ft.	10.00

Thuya Compacta

(Compact Arborvitae)

Dwarf Compact habit.

10-12 in.	1.00
12-18 in.	1.50
18 in.	2.00
18-24 in.	2.50

Thuya Globosa (Globe Arborvitae)

Very desirable round Evergreen.

7-9 in.	.75
10-12 in.	1.00
12-18 in.	1.50

Thuya Hoveyii (Hovey's Golden)

Has a round fan shaped top.

10-12 in.	1.00
12-18 in.	2.00

Thuya Pyramidalis

(Pyramidal Arborvitae)

Upright compact habit.

8-10 in.	.50
10-12 in.	.75
12-18 in.	1.00
18-24 in.	2.00
2-3 ft.	3.00
3-4 ft.	5.00

Thuya Siberica (Siberian Arborvitae)

Very hardy compact pyramidal form.
One of the best for ornamental planting.

10-12 in.	1.00
12-18 in.	2.00
18-24 in.	2.50
2-3 ft.	3.00

Tsuga Canadensis (Am. Hemlock)

A very graceful native tree or ornamental or hedge purposes.

1 ft.	.75
12-18 in.	1.00
18-24 in.	2.00
2-3 ft.	3.00
3-4 ft.	5.00
4-5 ft.	7.00

Larix Europea (European Larch)

A deciduous Evergreen or in other words an evergreen that sheds its foliage in early fall and comes out in the spring with dark green needles, a very graceful lawn tree.

12-18 in.	1.00
18-24 in.	2.00

Caution:

In handling and planting evergreens never allow the roots to become dry for an instant. Their juices are resinous and when once dry, water has no power to restore them: dip the roots in "grout" or very thin mud, and plant quickly; cover the roots with fresh soil and a heavy piece of wood beat the earth solid over them. Fill up and pound again, and finish by bringing fresh loose earth about the tree with the hoe. No wind can now bend the tree about so as to break the tender rootlets as fast as formed.

SHADE TREES

We must do our part and plant more trees.

Am. White Ash

Well known native tree.

7-8 ft	1.00
8-10 ft.	1.50

10-12 ft.	2.00
12-14 ft.	2.50
14-18 ft.	3.00

Am. White Elm

Too well known to need describing.

3-5 ft.	.50
8-10 ft.	2.00
10-12 ft.	3.00
12-15 ft.	4.00
15-18 ft.	6.00
18-20 ft.	10.00
20-25 ft.	20.00

Am. Linden

Our native basswood.

10-12 ft.	5.00
-----------	------

European Linden

A very fine pyramidal tree.

10-12 ft.	4.00
12-15 ft.	5.00

Maple, Norway

The Norway Maple is one of the most desirable shade trees. This is a European hard maple that thrives under the most adverse conditions.

(These prices include planting)

8-10 in. 1-1½ in. Cal.	4.00
10-12 ft. 1½-2 in	5.00
12-14 ft. 2-2½ in.	7.50
14-16 ft. 2½-3 in.	10.00
3-4 in.	15.00
4 in.	20.00
4-5 in.	25.00

Maple, Red

This tree is some times called our Scarlet Maple. It has red blossoms in the early spring and in the fall the leaves turn a brilliant scarlet.

12-18 in.	.25
2-3 ft.	.50
3-4 ft.	2.00
12-15 ft.	5.00

Maple, Silver

The most rapid growing of all Maples	
12-18 in.	.10
2-3 ft.	.25
3-5 ft.	.50
8-10 in.	1.50
10-12 ft.	2.00
15-18 ft.	4.00
20-25 ft.	5.00

Maple, Sugar

This is our native hard maple. A very desirable shade tree.

1-2 ft.	.50
3-5 ft.	.75
5-7 ft.	1.00
7-9 ft.	2.00
9-10 ft. 1-1¼ in.	2.50
1¼-1½ in.	3.50
1½-2 in.	5.00
2-2½ in.	7.50
2½-3 in.	10.00
3-4 in.	15.00

Maple, Schwedelri

This is our beautiful Norway Maple, that has red or crimson leaves early in the season.

4-5 ft.	2.50
8-10 ft.	5.00
10-12 ft.	7.50
3 in. Cal.	15.00

Oak, Pin

This is a graceful lawn variety.

2-4 ft.	1.00
5-6 ft.	2.00
7-8 ft.	4.00
